ABOUT ME

Software Developer with more than 5 years of experience in Java, C++, Python and cloud technologies. I have led complex projects increasing efficiency by up to 30%. I seek to continue improving and developing high quality solutions.

WORK EXPERIENCE

15/12/2024 – CURRENT Pontresina, Switzerland

DISHWASHER STAFF ROMANTIK HOTEL MOUTTAS MURAGL

I am responsible for cleaning the dishes, cutlery and other kitchen utensils used in the restaurant. I apply knowledge of hygiene and safe food handling to ensure the health of clients. Use professional cleaning tools such as detergents and cloths to remove residue. I am in charge of keeping the dishwasher area tidy and hygienic. Additionally, providing support in the room when necessary, serving tables and placing orders. My goal is to offer quality service through my efficiency and dedication in each assigned task.

07/01/2022 – 03/09/2024 Barcelona, Venezuela

SYSTEMS ANALYST ASESORIA EL MORRO

Designed and implemented network projects that optimized branch connectivity and performance, saving 20% in operating costs. I implemented data analysis and data transfers between different formats, improving the analysis capacity by 30%. Managed and optimized SQL databases that improved query speed by 40%, integrating analysis and query tuning practices. Collaborated with cross-functional teams to test and debug new features, resulting in a reduction in time to market by 20%. I implemented robust security measures that led to a compliance certification, guaranteeing data confidentiality.

01/08/2023 – 15/11/2023 Barcelona, Venezuela

RECEPTIONIST HOTEL PARADISE

Be responsible for the company's reception area.

Capture telephone calls and channel them in an appropriate and timely manner, greet and assist visitors, convey information, answer questions and give instructions to visitors.

Be the first point of contact for customers.

Provide attention to external visitors and channel them to the corresponding area.

Carry out the registration of external visitors to the secretariat.

05/05/2019 – 03/10/2021 Barcelona, Venezuela

FULL-STACK DEVELOPER GRUPO ABREU

Implemented CI/CD pipelines in Azure DevOps, increasing the frequency of deployments by 40% and improving code quality. I worked with product stakeholders to translate their requirements into technical specifications, reducing estimation time by 20%. I kept technical documentation updated and detailed, facilitating knowledge transfer and rapid problem resolution. I collaborated in the implementation of agile methodologies, accelerating development cycles and improving software quality. Provided technical support and troubleshooting, reducing system downtime by 35%.

17/11/2019 – 05/02/2020 Barcelona, Venezuela

CASHIER SUPERMERCADO TUFAVORITO

I work as a cashier in a food store, where I am in charge of customer service at the checkout, point of sale control, and cash management. I make sales by scanning the products and charging through different payment methods such as dataphones and vending machines. I also offer information on fruit, bakery and delicatessen products. At the end of each shift I carry out cash counting and stock control in the store. Thanks to this experience I have developed skills such as customer service, operations with collection systems and responsible cash management.

01/06/2018 – 01/10/2018 Caracas, Venezuela
WAREHOUSE WORKER SURFAVEN QUIMICOS, C.A

Accurately execute the handling, packaging and storage of materials in the warehouse.
Receive products, label them, verify quality, store products, and document any damage.
Store and monitor item stock levels, maintain stock, and ship merchandise.

03/03/2017 – 07/04/2019 Caracas, Venezuela
DEVELOPER SOFTWARE INVERSIONES KARBACK

Developed and maintained applications for Administrative projects, contributing to a 20% improvement in customer satisfaction. I integrated version control tools such as Git, guaranteeing the stability and tracking of the source code. I collaborated with international teams to migrate applications to cloud environments, increasing flexibility and scalability. Participated in internal hackathons, resulting in the generation of three innovative ideas that were implemented into real products.
